

## About Ascentium Capital

*Helping businesses seize opportunity.*

At Ascentium Capital we understand that access to capital is critical for growth and progress. It allows companies to invest in themselves and the revenue-generating equipment their businesses need to grow no matter what the current market conditions.

Ascentium Capital delivers flexible, small-ticket financing to businesses both acquiring and selling those critical equipment assets. We specialize in loan and lease products for all types of car wash equipment and the CAR WASH INDUSTRY (both investor and petroleum marketplaces). This includes our simple APPLICATION ONLY program for equipment costs up to \$250,000 and 24 HOUR CREDIT PROCESSING on all APPLICATION ONLY TRANSACTIONS.

## Industry Expertise

No matter what your business needs, Ascentium Capital can develop a solution around your business objectives and we deliver it with the expedient, seamless, service-rich experience associated with the best financial institutions in America.

Our team of industry-leading leasing experts has decades of experience in customizing vendor finance programs and in tailoring leases for the end-user of that equipment. We offer customized payment structures, online account management, managed solutions and fast turnaround. With a nationwide sales presence and a proprietary technology platform, we have the resources to process transactions quickly and efficiently.

## Experience and Strength

Ascentium Capital's senior management team is knowledgeable, experienced, flexible and is deeply invested in the needs and successes of its customers. Led by Tom Depping, the former Chairman and CEO of Main Street Bank and Founder and CEO of First Sierra Financial, the Ascentium Capital team has been serving small to mid-size businesses for over 25 years, financing over \$5 billion in small-ticket equipment leases and loans in that time.

Based in Houston, Texas, Ascentium Capital was founded with a \$105 million equity commitment, primarily from Luther King Capital Management and Vulcan Capital and operates with an initial \$500 million lending facility.
